Filing Accessories

**APS**  
**Legal Tabs**

Put your imagination to work. Position the tab anywhere, at any length, with any message. Select the best paper stock, grade and texture. Flaunt your corporate colors by printing single, multi or process colors on the body of the index. Flood coat your index with ink or varnish, or film laminate for extra gloss and durability - on one or both sides.

Ensure durability with reinforced holes on the binding edge. You can even color code your indexes by choosing from a complete array of tab colors.

## Full Color Index Tab Dividers

- Effective and inexpensive
- Choose bottom or side tab formats
- Available in your choice of paper stock, ask about our stock sheets
- Print in spot PMS or process colors
- Printed one-side or two-sided
- Body copy can be printed on one or two sides
- Choose from vanishing or UV coating
- Mylar can be applied to varnished tabs
- Customize the tab length
- Tab extensions are available in 1/4", 3/8" & 1/2"
- Tab extensions, lengths and styles can be customized
- Various hole punching configurations are available
- Edge reinforcing can be applied for additional strength
- Custom sheets can be produced for your binding requirements
- We can effectively manufacture any size project
- Fold and/or glue to your specifications

**Save Time...Save Money!** Ask how we can manufacture your complete project. Let us provide binders or presentation folders along with your tabs; assembled the way you need it.

## Keep your folded tabs looking professional!

Our unique folding process reduces or eliminates the white line along the fold. Because fibers are stretched and ultimately tear when folded conventionally, you will see the unpleasant white lines. No matter what stock or how heavy your ink coverage is, our folding process will provide you with a clean, professional index tab... without the unsightly white line.
